Scottsdale, AZ 85260

### **0.2 AOTA CEUs/2.0 Contact Hours**

**Course Description:** Power wheelchair drive controls are constantly evolving with advancing technology. There is a wide range of these products and complex rehab equipment professionals often have limited exposure to the options that are available. This class will provide evaluating clinicians, Assistive Technology Professionals, and other seating/mobility professionals with knowledge of various drive control options and programming options available to provide maximal benefit to the end user.

**Speaker: Andrea Lewis, OTR/L**

Clinical Education Manager, Quantum Rehab

**Course Level:** Beginner / Review

**Instructional Methods:** Lecture, Discussion

### **Learning Objectives**

At the conclusion of the course the participant will be able to:

1. Explain 2 programming features available for proportional drive controls that can increase independence and maximize function
2. Explain 2 programming features available for switched drive controls that can increase independence and maximize function.
3. Discuss 2 options for accessing and controlling power seating functions when utilizing switched drive control devices.

**Target Audience:** Licensed/Certified Medical Professional (i.e. PT, OT), Rehab Professional (ATP, SMS, CRTS)

**Pre-requisites:** None

**AOTA Classification Code:** OT Service Delivery, Foundational Knowledge
